STRATEGIC PARTNERSHIPS IN MARITIME & LOGISTICS

CONNECTING MARITIME ASSETS WITH GLOBAL OPPORTUNITIES

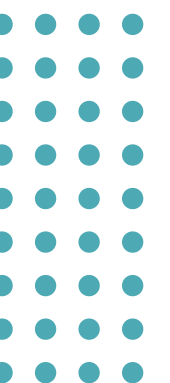

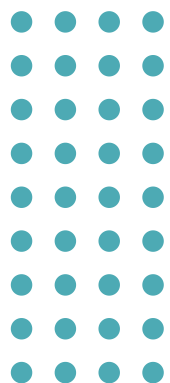

FUEL EFFICIENCY & ALTERNATIVE FUEL

Reducing operating costs while preparing fleets for the transition to cleaner and alternative fuels.

We connect shipowners and operators with proven technologies and solutions that improve fuel efficiency, lower emissions, and support the gradual adoption of alternative fuels.

From retrofit solutions to hybrid propulsion and alternative-fuel readiness, we help fleets become more efficient, competitive, and prepared for the future.

WHERE NAVIGATION MEETS INNOVATION

We connect maritime businesses with innovative technologies that improve vessel performance, optimise operations, and accelerate the transition to smarter, cleaner shipping.

From digital solutions and AI-driven optimisation to energy-efficient technologies and advanced propulsion, we help shipowners and operators turn innovation into measurable operational value.

➤ **Green Maritime Tech
Fuel-Saving Solutions**

➤ **Ship Repair | Retrofit**

➤ **Project Management**

MARITIME TRANSPORT ENTERS A NEW ERA THROUGH ELECTRIFICATION

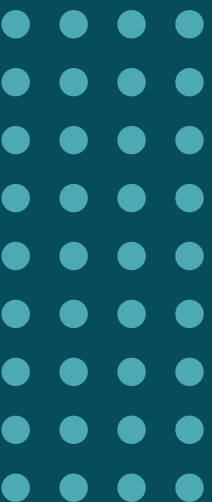

➤ **Electric ferries and short-haul vessels**

➤ **Hybrid Propulsion & Engine Retrofit**

➤ **Next-Generation Battery Systems**

Electric and hybrid technologies are reshaping maritime transport, enabling lower fuel consumption, reduced emissions, and more efficient vessel operations.

We connect shipowners and operators with solutions ranging from electric and hybrid propulsion to advanced battery systems and retrofit technologies - supporting the transition toward cleaner, more efficient and future-ready fleets.

Consulting for the Maritime Industry

Retrofits & Decarbonization Projects

Vessel Sale and Purchase

Contractual and Regulatory Advisory

Port Logistics Real Estate

Together with our partners, Olexis Maritime provides specialised consulting and advisory services to support shipowners, operators, investors, and maritime businesses across key areas of the industry.

Our expertise includes:

- Retrofits & Decarbonization Projects
- Vessel Sale and Purchase
- Contractual and Regulatory Advisory
- Port Logistics Real Estate

We support clients throughout the project lifecycle — from strategic planning and transaction structuring to regulatory compliance, negotiations, project implementation, and access to financing opportunities.

With practical maritime knowledge and international legal and commercial expertise, ABM Group helps clients navigate complex projects, identify the right opportunities, and make informed decisions with confidence.

Delivering Expertise across Maritime Assets, Ports, Logistics, and Infrastructure
